

Calling All Young Scientists!

If you are interested in participating in the 2015 Prospect Valley Science Fair, please complete the **Preliminary Registration form** (attached) and return it to your teacher ASAP. After your preliminary form is returned you can access the Science Fair Handbook online or request a hard copy to guide you in the preparation of your project. Projects may be done as an individual, as a team of students, or as a family. Please be aware that each student or team must cover the costs associated with their own project. **A final registration form will be due by Tuesday, April 14, 2015.**

The Science Fair is non-competitive. Science mentors will review all projects and provide individual evaluations and feedback. Each student participant will receive a Certificate of Participation. Set-up for the Science Fair will be before school on Monday, April 20. Feedback will take place on Monday, April 20. All classes will tour the fair during the day on Monday. The Science Fair will be open to the public on Monday evening, April 20, 2015, from 5:00- 7:00 pm. All Science Fair projects **MUST** be broken down and removed by 7:00 pm, Monday, April 20, 2015.

There are three types of Science Fair projects we would like to see, please limit your project to a Demonstration, an Investigation or an Invention.

DEMONSTRATION	INVESTIGATION	INVENTION
-a collection of rocks -a zipper, how does it work? -a solar system model	- How long does it take the heart to return to normal after exercise? - How often are weather predictions right? - How rapidly does a plant make starch?	A unique and innovative design or redesign and improvement over something that already exists.
